PRE-DIETETICS

FALL 2017

The Pre-Dietetics designation allows you to continue exploring various majors by selecting multidisciplinary General Education classes with a focus on coursework/pre-requisites that can prepare you to apply for admissions into the Bachelor of Science Dietetics program, should you determine that this major is most appropriate for your skills, interests and career goals.

IMPACTION

Dietetics is an impacted program, meaning there are more students wanting the major than there is capacity. Thus freshmen and sophomores interested in the Dietetics program should consider declaring Pre-Dietetics. However, this does not mean that your major is now Dietetics, nor does this designation guarantee or increase your chances of acceptance into the major. It may make you eligible to receive news and updates from the department and the college regarding the program.

ABOUT THE MAJOR

The Family Interiors Nutrition & Apparel Department (FINA) offers an undergraduate degree in Dietetics, is an accredited Didactic Program in Dietetics (DPD) and meets the Eligibility Requirements and Accreditation Standards of the Accreditation Council for Education in Nutritional Education of the Academy of Nutrition and Dietetics. The program prepares students for careers in clinical dietetics, foodservice systems management and nutrition education in hospitals, industry or government agencies. Most positions require an RD (Registered Dietitian).

REGISTERED DIETITIAN NUTRITIONIST

To become a Registered Dietitian Nutritionist (RDN) one must: 1) complete the B.S. in Dietetics, 2) complete a Dietetic Internship, 3) pass the RD exam. To become a Dietetic Technician, Registered Nutritionist (DTRN) one must: 1) complete the B.S. in Dietetics, 2) complete the DTRN eligibility application, 3) pass the D.T.R.N. exam.

APPLICATION INFORMATION

Students are required to submit a supplemental application for admission into the undergraduate Dietetics program. Current students must apply during a specific time frame, typically in the first few weeks of January. Please refer to this link for the supplemental application and updated deadlines:

fina.sfsu.edu

**SAN FRANCISCO
STATE UNIVERSITY**

Suggested first-year course sequence to apply for admission by junior year*

FALL 2017**

MATH 60/70 or 124
ENG 104 or 114
COMM 150 or AREA A3
BIOL 210/211
AREA D2 or D3
AREA C1 or C3

SPRING 2018

MATH 70 or 124
ENG 105 or ENG 214 (AREA A4)
PSYC 200
CHEM 115 – Must take assessment test
COMM 150 or AREA A3
AREA D2 or D3 if in ENG 114, if not then
AREA C1 or C3

* AP and IB exam scores as well as courses taken at a community college can also impact the suggested course sequencing. If you are not sure how this will affect your scheduling, please contact an SRC advisor.

** Admission in this major requires that you be at junior standing (60 units) by the time you start the program. If it is important that you start this program by your junior year, you will need to average at least 30 units each academic year. Apply in sophomore year for admission in junior year.

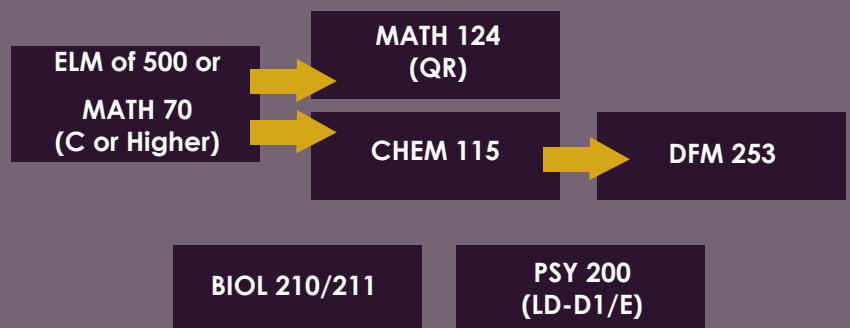

Current students are eligible to apply as long as they meet these minimum criteria:

- Upper Division Status (60 unit by end of Spring after applying)
- Minimum of 2.5 overall and pre-requisite GPA
- Successful completion or in progress of all pre-requisite courses (end of Spring after applying)
- Submit correctly and a fully completed supplemental application by the department deadline

The supplemental application will require you to write a one-page personal statement expounding on your experience in the field of Dietetics and Nutrition as well as your professional goals related to the program. Although the minimum GPA required to apply is a 2.5, successful applicants typically have a much higher GPA so aim for the best possible grades.

*Once students are accepted into the major, they are required to meet with their major advisor at least once a semester.

PRE-REQUISITE FLOW CHART

General Education Areas Potentially Met by Courses in this Major

Successfully completing the Dietetics curriculum would also mean that you have met the requirements for all of AREA B, AREA D1 and AREA E in your lower division General Education requirements.

ADDING, DROPPING AND WITHDRAWING FROM CLASSES AFTER START OF SEMESTER

Please be aware of all deadlines. You may add courses via your Gateway until before the first day of instruction, provided there is space available. Once classes start, you will need permission numbers from your instructor to add classes via Gateway.

Dropping courses via your Gateway without it noted on your official records must occur within the first three weeks of each semester. After this three-week period, you are no longer allowed to drop courses via your Gateway. You must have a serious and compelling reason to withdraw from a course and submit a petition with objective supporting documentation. If approved, a "W" will appear on your transcript. All withdrawal petitions that lack serious and compelling reasons and/or viable supporting documentation will be denied within the College of Health & Social Sciences. Be conscientious about withdrawing from classes, as you are allowed a maximum of 18 units for withdrawal, and "W"s on your transcript can reflect poorly. Also, keep in mind that you are only allowed to repeat a course once for a maximum of two times.

Lastly, it is ALWAYS students' responsibility to ensure that they are in the appropriate classes — always check your schedule!
